

29 October 1968

MORNING MEETING ACTION ITEM

TO:

The Director commented that we will be receiving various requests from White House staffers for information and materials pertaining to various foreign policy issues and problems which are now being reviewed for inclusion in the history of the Johnson Administration. The Director reiterated that we should be forthcoming with materials which were originally designed for external use. However, strictly internal documents (for example, Memoranda for the Record prepared by former Directors or DDCI's on White House meetings) do not constitute appropriate documents for the historical record. He asked that   who is heading up the Agency's compilation of materials for the Johnson Library, be utilized as the point of reference for all such requests and that the Director be advised of the existence of such requests and the manner in which they are being handled.
